COMPANY PROFILE

In year 1997, MINOX was introduced to Malaysian food & beverage industry by offering a comprehensive range of stainless steel valves and fittings for investors and manufacturers who required high standard of hygienic, product integrity and purity. They have chosen MINOX as their recognized partner since then, to maintain high degree of quality and consistency in their products, with low operational and maintenance cost.

MINOX, YOUR PREFERRED BUSINESS PARTNER

After many years of endeavor and dedication, MINOX is now one of the brand leaders in South East Asia and a preferred supplier of food & pharmaceutical grade stainless steel valves and fittings to many of the world's leading beverage manufacturers and engineering companies.

QUALITY CONTROL

The new MINOX Quality Control center in Melaka Malaysia represents the company's commitment to achieve the standard being required by the food and beverage-processing world. Being a member of EHEDG (European Hygienic Engineering & Design Group) and FPSA (Food Process Suppliers Association USA) since 2005, MINOX has been educated from the information and knowledge that disseminated from these organizations. We have, and in fact still investing in quality control checking equipment to ensure every single piece of item that ship out to customer will not fail in hygienically designed.

LOGISTIC HUBS IN SINGAPORE AND MALAYSIA

Two logistic hubs in Singapore and Malaysia also indicate our vision to become one of Asia's most competitive hygienic grade stainless steel stockiest. Carrying more than 5,000 different articles in stock, MINOX's product range is among the most extensive in South East Asia especially from hygienic grade of stainless steel tubes, pipes, fittings and valves to FDA & USDA grade rubber hose, gasket and seal. Our dedicated export department located in these two countries is offering professional service and support to our expanding customer base around the world.

Member of EHEDG (European Hygienic Engineering & Design Group) and FPSA (Food Process Suppliers Association USA) since 2005.
